TESTIMONIALS

Skin Issue: Skin allergy (thigh area)

Product used: Pluken Derma C Cream 50ml

Duration of usage: 1 week

BEFORE

AFTER

"I have been struggling with skin allergies, including redness, flare-ups, and itchiness. After using Pluken Derma C Cream for just one week, I noticed a big improvement. The redness and itching started to calm down, and my skin felt much more comfortable. This cream has really helped to soothe my skin, and I'm happy with the results!"

TESTIMONIALS

Skin Issue: Dark spot due to skin allergy (arm area)

Product used: Pluken Derma C Cream 50ml

Duration of usage: 1 week

BEFORE

AFTER

"I used Pluken Derma C Cream for one week to help with dark spots caused by skin allergy. After just a short time, I noticed the dark spots visibly lightened. I'm really pleased with the outcome.."

TESTIMONIALS

Skin Issue: Dry and irritated skin (hand)

Product used: Pluken Derma C Cream 50ml

Duration of usage: 12 days

BEFORE

AFTER

"I used Pluken Derma C Cream for 12 days to treat dry and irritated skin on my hands. The results have been impressive—my skin feels much more moisturized and smoother, with no signs of flakiness. I'm very pleased with how well it has worked to restore comfort to my skin!"

TESTIMONIALS

Skin Issue: Mild eczema (elbow area)

Product used: Pluken Derma C Cream 50ml

Duration of usage: 4 days

BEFORE

AFTER

"I've been using Pluken Derma C Cream for mild eczema on my elbow area for four days. My skin already feels more moisturized and smoother, with no signs of flakiness. I'm really happy with the improvement in such a short time!"

TESTIMONIALS

Skin Issue: Very dry skin (feet area)

Product used: Pluken Derma C Cream 50ml

Duration of usage: 7 days

BEFORE

AFTER

"I used Pluken Derma C Cream for seven days on the itchy, dry patches on my feet. The results have been excellent—my skin feels more moisturized, and the flakiness has significantly reduced. I'm really satisfied with the relief it has provided!"

TESTIMONIALS

Skin Issue: Skin allergy (hand area)

Product used: Pluken Derma C Cream 50ml

Duration of usage: 1 month

BEFORE

AFTER

"I've been using Pluken Derma C Cream for a month to treat my skin allergy on hands, and the results are satisfying. The bumpy texture is gone, and my skin looks much smoother. I'm really happy with the improvement!"

TESTIMONIALS

Skin Issue: Very dry and cracked skin (feet)

Product used: Pluken Derma C Cream 50ml

Duration of usage: 2 weeks

BEFORE

AFTER

"The cracks have healed noticeably, and feels much smoother after I tried Pluken Derma C Cream for two weeks on my very dry, cracked foot."

TESTIMONIALS

Skin Issue: Very dry and cracked skin (feet)

Product used: Pluken Derma C Cream 50ml

Duration of usage: 2 weeks

BEFORE

AFTER

"I often have cracked heels so this time I tried Pluken Derma C Cream for 2 weeks and I can see a very promising result! My heels got so much smoother and moisturized."

TESTIMONIALS

Skin Issue: Skin dryness , minor bed sore wound (buttock area)

Product used: Pluken Derma C Cream 50ml

Duration of usage: 2 weeks

BEFORE

AFTER

“My father is bedridden and then to have very dry skin which makes his skin more sensitive. Now, he got bed sores, I applied the cream on the dry area around the wound. In 2 weeks I can see the dryness and redness reduced!”

TESTIMONIALS

Skin Issue: Skin problem (hand)

Product used: Pluken Derma C Cream 50ml, LinoGreen Sacha Inchi Oil 530mg softgels

Duration of usage: 2 weeks with Derma C cream only (1), 1 month with Derma C cream and LinoGreen Sacha Inchi Oil (2)

BEFORE

AFTER

"I started using Pluken Derma C Cream alone for two weeks to manage the red, itchy, and dry patches on my hands. While I noticed some improvement, I added LinoGreen Sacha Inchi Oil softgels to my routine and continued both products for an additional month. Together, they made a significant difference—my skin feels much more hydrated, the redness has faded, and the itchiness has greatly reduced. I'm very happy with the combined results!"

TESTIMONIALS

Skin Issue: A 10-years old child with an allergic reaction and eczema affecting the entire body.

Product used: Pluken Derma C Cream 50ml

Duration of usage: 1 month

BEFORE

AFTER

"My 10-year-old kids has been struggling with an allergic reaction and eczema affecting the entire body. After using Pluken Derma C Cream consistently for one month, we've seen a noticeable improvement. His skin appears calmer, less irritated/redness, and much more moisturized. This cream has made a real difference!"
